

Invitation to

6th

International Iron Ore Market Seminar 2012

Organizer : CCCMC
Mysteel

Duration : 16th to 18th April

Venue : Shangri-La Hotel, Qingdao, China

Invitation to International Iron Ore Market Seminar 2012 "Perceive the Market in a New Situation"

The 6th International Iron Ore Market Seminar, organized by CCCMC and Mysteel, will be convened in Shangri-La Hotel, Qingdao, China on Apr 16-18, 2012. We are pleased to invite you to attend this great gathering to discuss the iron ore market dynamics and perceive the latest trends in the new situation whilst recalling old friendship.

The iron ore market in 2011 was a sharp contrast from the start to the end. Iron ore prices mounted up before September while plunged in October, with undulations lingering to date. Both steel mills and iron ore traders paid too much mentally and financially for the wild volatility. While isn't the volatility closely connected with Chinese and international economic oscillation? The iron ore market is just a miniature of the economy.

Nowadays, steel demand is directly affected by the fatigued world economy, when European debt crisis still seeps, the US remains trapped in high unemployment and being indebted, while emerging economies also noticeably slow down their growths. In particular, the

world largest iron ore consumer China is shifting its orientation from high-speed growth to seeking improvement amid stability. All this determines a NEW SITUATION.

It's foreseeable to see bags of questions in the new environment. How should we understand China's new target of seeking improvement amid stability? What will this bring to the iron and steel industry and market? Where will iron ore supply and demand balance head for? And how could we understand the new evolution of the iron ore market?

The 6th International Iron Ore Market Seminar is intended to bring you answers to all the questions. In addition to bringing you a fantastic line-up of speakers, the seminar will bring together around 1000 attendees and offer the best access to finding partnerships and promoting friendly relations.

We look forward to your presence in the beautiful city--Qingdao in April !

April 16-18 , Qingdao , China

BRIEF INTRODUCTION OF THE CONFERENCE

Attend the Seminar to Learn:

- China and world macro economic and financial policies in 2012
- China iron & steel industry policies and impact on the ore market in 2012
